SUMMARY

Computer Science undergraduate at the University of Westminster (delivered by IIT, Sri Lanka) who builds AI-powered applications, full-stack software, data-driven systems, and automated workflows. Hands-on with Python, TypeScript, JavaScript, React, Next.js, Node.js, FastAPI, REST APIs, and LLM integration, with experience in machine learning workflows, model explainability, and relational databases. Applies a testing and quality mindset through debugging, validation, and responsive, accessible design, and delivers projects through to production deployment.

TECHNICAL SKILLS

Programming: Python, TypeScript, JavaScript, Java, HTML5, CSS3

Software Engineering: React, Next.js, Node.js, Express.js, FastAPI, REST APIs, API Integration, Software Development

AI & Data: Machine Learning, Generative AI, LLM Integration, Prompt Engineering, AI Agents, AI Automation, Data Analysis, Exploratory Data Analysis, Model Explainability

Databases: PostgreSQL, MySQL, Supabase, Firebase, Redis

Testing & Quality: Playwright, Debugging, Validation, Responsive Testing, Accessibility

Tools & Deployment: Git, GitHub, Vercel, Netlify, Zod, React Hook Form, Figma

PROJECTS

SYNTRIX AI — Autonomous AI Data Intelligence Platform

[Next.js](#) · [Python](#) · [FastAPI](#) · [LangGraph](#) · [Celery](#) · [Redis](#) · [Supabase](#) · [MLflow](#) · [SHAP](#)

- Built an autonomous AI data intelligence platform with a Next.js frontend and a Python FastAPI backend to automate data analysis and reporting.
- Orchestrated multi-step agentic workflows with LangGraph, offloading long-running tasks to Celery workers backed by Redis for background processing.
- Implemented machine-learning workflows with model evaluation and MLflow experiment tracking, and added SHAP explainability to make model predictions interpretable.
- Architected the API and data layers across FastAPI services and Supabase, and automated report generation to deliver findings in a clear, reviewable format.

LURZ AI — AI-Powered Market Intelligence Platform

[Next.js](#) · [React](#) · [TypeScript](#) · [Tailwind CSS](#) · [Framer Motion](#) · [Real-Time APIs](#)

- Developed an AI-powered market intelligence platform that analyses financial market data and presents insights in real time.
- Integrated real-time data APIs into a responsive Next.js and TypeScript frontend, presenting complex financial data through clear, animated interfaces.
- Structured the application with reusable, type-safe React components for maintainability and consistent behaviour across screen sizes.

CVForge — AI Resume Intelligence Platform

[React](#) · [TypeScript](#) · [Node.js](#) · [Express](#) · [Google Gemini](#) · [OpenRouter](#) · [PostgreSQL](#) · [SSE](#)

- Built a full-stack platform that analyses resumes, calculates ATS compatibility scores, identifies skill gaps, and generates tailored recommendations.
- Integrated Google Gemini through OpenRouter for semantic analysis and streamed results to the client in real time using Server-Sent Events (SSE).
- Implemented secure PDF processing and a privacy-first architecture that handles documents entirely in memory.
- Connected a React client, an Express REST API, and PostgreSQL; delivered a responsive, accessible interface with dark/light mode, deployed on Vercel.

Dolphin Beach Villa — Interactive Hospitality Experience

[React](#) · [TypeScript](#) · [Three.js](#) · [React Three Fiber](#) · [GSAP](#) · [Framer Motion](#) · [Lenis](#) · [Vite](#)

- Engineered an interactive hospitality website with 3D scenes using Three.js and React Three Fiber, combined with GSAP and Framer Motion animation.
- Applied component-driven architecture, smooth scrolling, and responsive layouts with attention to performance across devices.

NovaStack AI — AI SaaS Product Experience

[Next.js](#) · [React](#) · [TypeScript](#) · [Tailwind CSS](#) · [Radix UI](#) · [React Hook Form](#) · [Zod](#)

- Developed a SaaS product website with the Next.js App Router, using component-driven architecture and accessible Radix UI primitives.
- Implemented form handling with React Hook Form and schema validation with Zod, with responsive layouts deployed on Vercel.

NIVI Energy Drink — Interactive Digital Brand Experience

[Next.js](#) · [React](#) · [TypeScript](#) · [Tailwind CSS](#) · [Framer Motion](#) · [Lenis](#)

- Built a product-focused marketing website with animated hero sections, interactive showcases, smooth scrolling, and reusable responsive components.

Table Linens — Business Website (Client Project)

[React](#) · [TypeScript](#) · [Vite](#) · [Tailwind CSS](#) · [Supabase](#) · [Framer Motion](#) · [Lenis](#)

- Developed a real-world business website with a responsive React and TypeScript frontend, Supabase integration, and smooth animated interactions.

ADW Trust

[React](#) · [TypeScript](#) · [Vite](#) · [Tailwind CSS](#) · [Framer Motion](#) · [Lenis](#)

- Built a responsive, animated website with reusable React components and smooth scrolling interactions.

TESTING & QUALITY

- **Debugging:** systematically troubleshoot issues across frontend, API, and data layers while building and refining projects.
- **Validation:** client-side form handling and schema validation with React Hook Form and Zod; familiar with Playwright.
- **Responsive and accessible design:** layouts checked across screen sizes with attention to accessibility, deployed on Vercel and Netlify.
- **API integration:** connecting frontends to REST APIs, real-time data sources, and LLM services (Google Gemini, OpenRouter).

EDUCATION

BSc (Hons) Computer Science — University of Westminster, United Kingdom | Expected Graduation: 2029

Delivered through Informatics Institute of Technology (IIT), Colombo, Sri Lanka

Foundation in Computing — Informatics Institute of Technology (IIT), Colombo, Sri Lanka | May 2025 – December 2025

GCE Ordinary Level (O/L) — BT/Methodist Central College | January 2014 – March 2025

CERTIFICATIONS

- IBM Data Science Professional Certificate
- IBM Applied Data Science Specialization
- Microsoft AI & ML Engineering Specialization
- IBM Relational Database Administration (DBA)

LANGUAGES

English — Professional Working Proficiency | **Tamil** — Native
